EDUCATION

Western Governors University, BS in Computer Science

Expected May 2027

- **Coursework:** Scripting and Programming, Data Management, Discrete Mathematics, Probability and Statistics

Massachusetts Institute of Technology, Applied Data Science Program

October 2024

- **Coursework:** Practical Data Science, Machine Learning, Deep Learning, Recommendation Systems

SKILLS

Languages: Python, SQL, Java

Frameworks: PyTorch, HuggingFace, OpenCV, TorchVision, FastAPI

Tools: Git, Docker, DOMO, Tableau, Apache Airflow, MLFlow, Azure, AWS

RESEARCH

ROOT Optimizer for Medical Image Classification | PyTorch, Docker | 🐙

December 2025 - Present

- Investigating whether **ROOT optimizer** improves training stability, generalization, and computational efficiency of CNN-ViT hybrid ensembles for malaria detection versus standard optimizers (AdamW, Muon); **leveraging LLMs (Claude, ChatGPT)** to accelerate literature review and synthesize findings across source papers.
- Implementing comparative benchmarking framework to evaluate convergence speed, memory usage, noise robustness, and accuracy with limited data, addressing gradient noise in **large-scale models**.

EXPERIENCE

Enrollment Specialist, HPOne (Remote) – Connecticut

Sept 2025 – Present

- **Process 200+ monthly Medicare enrollments** during AEP, performing data validation and reconciliation across multiple database systems while maintaining **99%+ data-logging accuracy** and **HIPAA compliance**.
- **Manage 8–10 daily enrollments** independently with **97%+ success rate**, ensuring each aligns with CMS regulations and internal risk governance standards while utilizing CRM platforms for quality assurance.

SOC Specialist, Comcast Cable HQ (Contract) – West Chester, PA

April 2022 – Aug 2023

- **Identified threat patterns** through quantitative analysis of 100+ daily security events, **improving detection rates by 13%** across distributed enterprise infrastructure.
- **Built dashboards** tracking incident metrics and MTTR trends; performed data validation across multiple sources to support resource allocation decisions.

Credit Analyst Intern, WSFS Bank – Philadelphia, PA

June 2023 – Aug 2023

- **Drove 2% client base expansion** by synthesizing transaction data and market research into actionable recommendations for senior leadership.
- **Conducted competitive analysis** of real-time payment systems (FedNow, The Clearing House), benchmarking adoption rates and presenting findings to cross-functional stakeholders.

Desktop Technician Intern, Ellucian – Cheyney, PA

June 2022 – Aug 2022

- Delivered technical support for 50+ faculty achieving **95% first-contact resolution** and 4.8/5.0 satisfaction; led infrastructure upgrade improving WiFi coverage from 78% to 99% across campus.

CERTIFICATIONS

ITIL® 4 Foundation

In Progress

IT service management best practices, incident management, problem management, change control

LPI Linux Essentials

In Progress

Linux system administration, command-line proficiency, shell scripting, file systems
